Procedure for Reporting Employee Injuries and Acquiring Insurance Forms

The district policy in dealing with accidents or injuries for all employees is as follows:

1. Establish a line of communication by employees and their supervisors. (Be sure each employee clearly understands the steps to follow should an on-the-job injury occur);
2. Get immediate medical treatment from the school nurse or the principal's office;
3. Keep a record of the injuries handled by the nurse or any immediate medical treatment. Keep complete and accurate records for future reference, should the employee later decide to seek medical treatment. A SAIF Form 436-801 is needed to be completed for all injuries, those requiring first aid, physician treatment or hospitalization;
4. When an employee is injured and require the service of a physician, he/she must complete a SAIF Form 436-801 within 24 hours of injury and the building principal shall complete the form and forward it to the district office within 48 hours of the injury.

OSHA regulations require that the district maintain a record of recordable occupational injuries and illnesses of their employees. Such records must consist of:

1. A log of occupational injuries and illnesses;
2. A supplementary record of each occupational injury and illness. (SAIF Form 436-801)

A summary of occupational injuries and illnesses must be posted at the end of each calendar year. (No later than February 1)
