Personal Electronic Devices

Students may be allowed to use and possess personal electronic devices on district property and at school-sponsored activities provided such devices are not used in any manner that may disrupt the learning environment, school-sponsored activities or violate Board policies, administrative regulations, school or classroom rules, state and federal law. As used in this policy, a “personal electronic device” is a device that is capable of electronically communicating, sending, receiving, storing, recording, reproducing and/or displaying information and data.

The district will not be liable for personal communication devices brought to district property and school-sponsored activities. The district will not be liable for information or comments posted by students on social media websites when the student is not engaged in district activities and not using district equipment.

The superintendent is directed to develop administrative regulations and/or approve school rules as necessary to ensure that student use of such devices is consistent with this policy. Administrative regulations may include grade-or age-level possession and/or use restrictions by students on district property and at district-sponsored activities; consequences for violation; a process for responding to a student’s request to use a personal electronic device, including an appeal process if the request is denied; and such other provisions as the superintendent may deem necessary. The superintendent is responsible for ensuring that pertinent provisions of Board policies, administrative regulations and school rules governing personal electronic devices are included in staff handbooks and student/parent or guardian¹ handbooks, reviewed annually and updated as necessary.
