**Community Use of District Facilities**

The district wishes to cooperate with community groups, patrons of the district, educational organizations, religious institutions and nonprofit organizations dedicated to the welfare of the general public. At all times, however, the educational program of the district must have first consideration and must take precedence over community use of school buildings, grounds and other school property and facilities.

The administrative regulations of the district will include a detailed fee schedule, procedure and list of rules pertaining to public usage of school facilities. Groups and organizations will be allowed free usage, reduced rate usage or full rate usage depending on the membership of the organization, the purpose of the organization and the kind of function for which the facility will be used.

The administration will review the facility usage policy and procedures of the district and make recommendations as appropriate.
