Use of Private Vehicles for District Business

The Board discourages the use of private vehicles for school business, including the transportation of students. District staff will use district-owned vehicles whenever possible and should schedule activities and transportation far enough in advance to avoid any nonemergency use of private vehicles.

The superintendent will develop procedure for staff use of private vehicles that will safeguard the district, its employees and students in matters of safety, insurance and liability. The Board will review such regulations at least annually.

A student will be allowed to perform school business with his/her own automobile or staff member's automobile. Any student so authorized must obtain prior written approval from the superintendent or designee.
