2. Production room coordinator shall maintain a schedule for preventative maintenance and minor repairs for all equipment.

Guidelines for the Use of Copyrighted Materials

The superintendent is responsible for the establishment of practices which will ensure compliance with the provisions of the U.S. Copyright law as they affect the district and its employees.

1. General Responsibilities
 - a. The building principal will be designated with the responsibility for disseminating and interpreting copyright regulations at the building level. He/She will provide employee training as needed, distribute and review district policy and administrative regulations with employees, control the approval process and maintain written records regarding permissions, response to requests and license agreements as may be necessary.
 - b. The building principal will ensure that budget recommendations include appropriate funds for the purchase of multiple copies of needed software.
 - c. The building principal will ensure that appropriate warning notices are posted to educate and warn individuals using district equipment of the applicable provisions of the copyright law. Warning notices will be posted as follows:
 - i. On or near all copiers;
 - ii. On all forms used to request copying services;
 - iii. On all video recorders;
 - iv. On all computers;
 - v. At the library or other places where inter-library loan orders for copies of materials are accepted.
 - d. The building principal will ensure that building computers and computer labs are used only with proper supervision to help protect against unauthorized copying.
 - e. The building principal will annually inspect the library/media center and any video collections to ensure all copies are acquired and maintained in accordance with applicable provisions of the copyright law.
 - f. All computer software license agreements must be signed by the technology director.
 - g. The employee reproducing a copyrighted work will determine whether copying is permitted by law in accordance with district policy and administrative regulations.

- h. The employee will obtain written permission to reproduce material from the copyright holder(s) whenever copying does not fall within the “fair use” guidelines of copyright law. Permission forms, as provided by the district, will be used.
- i. The employee using emerging technology will be responsible to ensure that the intended use of the media does not conflict with copyright law. Such technology includes, but is not limited to, digital video, videodisc, satellite transmission, distance learning, CD-ROM, on-line data bases (and their down-loading), informational networks and other emerging electronic information which can be manipulated into new copyrightable forms of expression.

In the absence of clearly granted rights, the employee must contact the copyright holder in writing for permission to manipulate or use these technologies in alternative ways.

Any contract provided by the distributor of such technology must be submitted to the technology director for approval.

A limited number of copies may be reproduced from each off-air recording to meet the legitimate needs of teachers. Each additional copy will be subject to all provisions governing the original recording.

Unless authorized by the library/media coordinator, at the conclusion of the retention period, all off-air recordings shall be erased or destroyed immediately.

Individuals who wish to retain programs beyond the 45-day period need to complete and return the preview portion of the “Request for Off-Air Video Taping” form to the library/media coordinator for each program videotaped. The library/media coordinator will coordinate requests for permission to use or retain copyrighted television programs beyond the 45-day retention period.
 - ii. Retain videotapes of commercial programs only with written approval of appropriate copyright holders;
