Community Involvement in Decision Making

The Board will encourage the involvement of citizens, both as individuals and as groups, to act as advisors and resource people to the Board and to the district where appropriate.

Advice of the public will be given careful consideration. In the evaluation of such contributions, the first concern will be the educational program as it affects the students.

The final decision of the Board may depart from this advice when in the judgment of the staff and Board such advice is not consistent with goals adopted by the Board, current educational practice or within reach of available resources.
