

Blachly School District #90

Code: **GBEBC/JHCCC/EBAAA**
Adopted: 10/18/89
Readopted: 7/15/09
Orig. Code(s): JHCCC/EBBAA/GBEBC

Infection Control - HIV+, AIDS, HBV

The district shall practice infection control at all times and as though each staff member or student is infected with HIV, AIDS or Hepatitis B.

The district shall develop an Exposure Control Plan that includes infection control procedures for staff and students.

Staff and students shall receive an annual in-service that includes correct procedures for cleaning up body fluid spills and for personal cleanup, appropriate disposal, immunization and personal hygiene, as well as the location and a content review of first-aid and clean-up kits. Kits shall be available for each room in the building and in each district vehicle.

In addition to an annual in-service, staff and students on a regular basis will receive HIV, AIDS and HBV information.

The information shall emphasize infection — how infection is spread as well as how it is not spread.

The district will cooperate with the local health department and the education service district in delivering HIV, AIDS and HBV education.
