Homebound Instruction/Home Tutoring Services

Instruction will be provided to any student whose health or impairment will, as substantiated by a physician's statement, cause him/her to be absent from school for at least 10 consecutive days, and who can benefit educationally from such instruction.

If the condition is expected by the student's physician to cause an absence in excess of 20 consecutive school days, the district will make an effort to provide home tutoring services so the student has the opportunity to maintain his/her progress in the basic skill content areas.

The amount of instructional service provided will be related to each student's educational needs and physical and mental health.

It shall be the responsibility of the superintendent to develop and implement procedures to provide alternative educational services to students temporarily disabled or for other medical reasons unable to attend school.
