Use of Private Vehicles for District Business

The Board encourages the use of district-owned vehicles for school business including the transportation of students. Use of district vehicles should be scheduled far enough in advance to allow for appropriate assignment of district vehicles.

If no appropriate district vehicle is available staff may use private vehicles but such use requires prior administrative approval and must be consistent with the collective bargaining agreement.

A student will not be allowed to perform district business with his/her own vehicle or a staff member's vehicle.
