

**Brookings-Harbor  
School District 17C**

Code: **IIAD**  
Adopted: 1/09/95  
Revised/Readopted: 10/22/03; 3/18/15  
Orig. Code(s): IIAD

**Special Interest Materials**

In general, supplementary materials from a nonschool source should not be used in the schools without the superintendent's/designee's approval. Students may not be used as agents for distributing nonschool materials to the homes without the superintendent's approval.

Teachers may use special aids such as models, films, slides, pictures, charts, exhibits for educational purposes and various sources of media with the express approval of the superintendent/principal although these materials may bear the name of a commercial business firm that provided the aid.

Speakers and/or supplementary printed materials of a controversial nature from commercial, political, religious or other nonschool sources shall have the approval of the principal before being used in the schools. This approval may be given to materials that are of obvious educational quality, which supplement and enrich text and reference book materials for definite school courses, and which are timely.

Surveys, questionnaires and requests for information that may contain controversial material will be available for parent preview at each school office. Notice will be given at least one week in advance and will include a description of the material. Parents may request that their student be excused from the activity.

Educational films and all video rentals secured from or through commercial sources will be approved by the principal prior to their use in the schools.

All copyright laws regulating the use of such material will be strictly followed.

END OF POLICY
