## Board Member Development

The complexity of Board membership demands opportunities for development, study and training for Board members. The Board places a high priority on the importance of a planned and continuing program of professional development for the members.

In order for Board members to develop leadership capabilities, become informed about current issues in education and improve skills as members of a policymaking body, Board members will participate in opportunities for professional development that may include, but not be limited to, the following:

1. Professional development activities planned by the Board and professional development planned by the administration for staff members, as appropriate;
2. Participation in conferences, workshops, conventions and training held by state and national school board associations and other educational organizations. New Board members are particularly encouraged to attend training sessions sponsored by the Oregon School Boards Association and other groups;
3. Subscriptions to publications addressing Board-related topics.
