Policy Implementation

The superintendent is responsible for implementing the Board's policies and for interpreting them to staff, students and the public. Other administrators also share in this responsibility.

Some board policies require implementing an administrative regulation. Whenever appropriate, the superintendent shall develop administrative regulations, in consultation with principals, staff members and other persons and groups, and the superintendent shall submit them to the Board for review or adoption as appropriate. (Refer to Policy BFCA - Administrative Regulations (AR).)

Policies officially adopted by the Board, and administrative regulations formulated to implement adopted Board policies, shall be included in the *School Board Policy Manual*. Staff, student and parent handbooks shall also be used for disseminating policies and procedures to persons directly affected by them. The Board's policy manual will be available for inspection at the district office to any district employee or member of the public during regular office hours. Each district employee shall be specifically notified of the existence and availability of personnel policies.

Principals are authorized to establish rules and procedures for the staff and student bodies of their schools as long as these rules and procedures are consistent with board policies and administrative regulations established by the Board and superintendent.
