## **Communicable Diseases - Staff**

The district shall provide reasonable protection against the risk of exposure to communicable disease for employees while engaged in the performance of their duties. Reasonable protection from communicable disease is generally attained through immunization, exclusion or other measures as provided by Oregon law, by the local health department or in the Communicable Disease Guidance published by the Oregon Department of Education (ODE) and the Oregon Health Authority (OHA).

An employee who knows that he or she has, or has been exposed to, any restrictable disease, may not attend work unless authorized by Oregon law. When an administrator has reason to suspect that any employee has or has been exposed to any restrictable disease and exclusion is required, the administrator shall send the employee home. The administrator involved shall consult with the Multnomah Education Service District (MESD), School Health Services (SHS) nurse consultant or designee, to determine if the disease is a reportable. If the disease is a reportable disease, the MESD SHS Nurse Consultant will report the occurrence to the local health department and provide further instructions to the administrator.

Employees shall comply with all other measures adopted by the district and with all rules adopted by Oregon Health Authority, Public Health Division and the local health department.

Employees shall provide services to students as required by law. In cases when a restrictable or reportable disease is diagnosed and confirmed for a student, the administrator shall inform the appropriate employees with a legitimate educational interest to protect against the risk of exposure.

Employees who have the responsibility to work with or to provide services to persons, other than students, shall provide the services to all such persons as required by law.

The district shall protect the confidentiality of an employee's health condition and record to the extent possible and consistent with federal and state law.

The district will include, as part of its emergency plan, a description of the actions to be taken by district staff in the case of a declared public health emergency or other catastrophe that disrupts district operations.

The superintendent will develop administrative regulations necessary to implement this policy.

END OF POLICY
