Orig. Code(s): IFCA

21st Century Schools Councils

The overall purpose of building site council is to enhance student achievement through improvement of the instructional program and delivery of support services. Any decision that deviates from the Board policy/Administrative regulations or contractual agreements would be presented to the superintendent, Board and/or appropriate exclusive representative(s) respectively.

Collaborative decision-making is a process, not an end in itself. Collaborative decision-making provides an opportunity for members of a school community to work together, where appropriate, in solving problems, defining goals and shaping direction for an individual school.

The district encourages collaborative decision-making and supports building site councils.
