

Resident Student Denial for Virtual Public Charter School Attendance**

(This policy is required if the district plans to deny a student the right to attend a virtual public charter school.)

The district will annually, by December 1, calculate the percentage of the number of students residing in the district, who are enrolled in a virtual public charter school not sponsored by the district. When the established percentage is more than three percent, the district will not approve additional students enrollment to a virtual public charter school, subject to the requirements in Oregon Administrative Rule (OAR) 581-026-0305(2).

The district may send a notice of approval or disapproval to a parent¹ of a student who has sent a notice to the district of intent to enroll the student in a virtual public charter school not sponsored by the district (*See* OAR 581-026-0305 (3)).

The district is only required to use data that is reasonably available to the district, including but not limited to the following for such calculation:

1. The number of students residing in the district enrolled in the schools within the district;
2. The number of students residing in the district enrolled in public charter schools located in the district;
3. The number of students residing in the district enrolled in virtual public charter schools;
4. The number of home-schooled students who reside in the district and who have registered with the educational service district; and
5. The number of students who reside in the district enrolled in private schools located within the school district.

A parent may appeal a decision of a district to not approve a student enrollment to a virtual public charter school to the State Board of Education under OAR 581-026-0310.
