## Policy Implementation

The superintendent is responsible for implementing Board policies and for interpreting them to staff, students and the public. Other administrators share in this responsibility.

Many of the Board's policies require implementing regulations. The superintendent will develop these in consultation with principals, staff members and other persons and groups as appropriate, and will submit them to the Board for review and adaptation when Board action is necessary or advisable.

Regulations officially adopted by the Board and other districtwide regulations the superintendent desires will be included in the *Board's Policies and Regulations Manual*. Staff, student and parent handbooks also will be used for disseminating policies and regulations to persons directly affected by them.

Principals are authorized to establish rules and procedures for the staff and student bodies to their schools as long as these rules and procedures are policies and regulations established by the Board and superintendent.
