## **Relations with Home-Schooled Students\*\***

The district recognizes the rights of parents to educate students at home and acknowledges the education service district's role in registering and monitoring test results for students who are being taught at home.

Further, the Board is willing to assist parents in this endeavor if a request is made through the superintendent. The district will furnish basic course descriptions, state standards for elementary and secondary education, and when available, may furnish basic instructional materials upon deposit of a loss/damage fee.

Students may, upon parent request, be allowed to participate in district programs such as physical education programs, instrumental and vocal music programs or other selected options if space and materials are available. Such students must then adhere to regular attendance procedures in those classes as established by the district and must avoid disruption of said programs. Parents are responsible for transportation for students attending selected school offerings.

The district shall evaluate transcripts and determine the value of prior credits and number of years of school attendance or equivalent for home-schooled students on a case by case basis.

Home-schooled students may participate in interscholastic activities. An interscholastic activity is defined as an activity:

1. With optional student participation which complements the curriculum, encourages students' physical, academic or social development;
2. Supervised by school personnel;
3. Generally conducted outside the instructional day.

The following criteria must be met to participate in interscholastic activities:

1. The student is in compliance with all rules governing home schooling and can provide acceptable documentation of compliance to the district;
2. The student can meet the district eligibility requirements except the district or class attendance requirements;
3. The student need not meet class requirements of the voluntary association administering the interscholastic activities;

4. The student can achieve the minimum achievement test score required annually of home school students (Students may participate while awaiting test results). The parent shall submit the examination results to the district; or the district may adopt alternative requirements, in consultation with the parent, that a student must meet to participate in interscholastic activities, including, but not limited to, a requirement that a student submit a portfolio of work samples to the district for review to determine whether a student is eligible to participate in interscholastic activities;
5. The student must fulfill the same responsibilities and standards of behavior and performance including related class or practice requirements of other student's participating in the interscholastic activity. The student must meet the established standards for acceptance on the team or squad. The student must also comply with all public school requirements during the time of participation;
6. Student participation in OSAA-governed activities must meet OSAA requirements.
