## Curriculum Development

The Board recognizes that to improve the quality of instructional programs and to respond to changing society and community needs, it cannot permit the curriculum to remain static. The Board deems it essential that the district develop and implement an instructional management system which will modify curricula to meet changing needs, ensuring quality educational programs serving each individual student's interests.

While keeping with the requirements of state law, the Board authorized the superintendent, in consultation with staff, parents and the community, to review the curriculum periodically and to advise the Board on needed curriculum changes.

Decision making within the curriculum improvement process should be based on reliable data collected through a comprehensive assessment of needs. The assessment may include, but is not limited to, evaluation of student performance using appropriate measurement tools and procedures, surveys of parent perceptions and professional staff recommendations.
