

Condon School District 25J

Code: **IAA**
Adopted: 7/1/85, 4/12/94
Readopted: 11/9/05; 11/12/08
Orig. Code(s): IAA

Instructional Priority Objectives

The Board believes that clear statements of student learning objectives are a responsible and desirable method for identifying the core of the district curriculum. These objectives will be developed by the administration, teaching staff, parents and students where appropriate.

The objectives will specify core skills and knowledge that the majority of students are expected to acquire. Objectives will be stated in language that communicates clearly the intent of the district's program to students and to the public. They will provide clear direction for instructional efforts and will be specific enough to allow documentation of student growth toward their accomplishment.

A program for the use of student learning objectives in all courses will be developed to include:

1. Instruction to specified objectives; and
2. Assessment of student performance.

Implementation of this program is primarily the responsibility of the classroom teacher. The principal will provide building coordination, while the superintendent, will help in the development of assessment procedures, assist in designating systems for maintaining student records and coordinate the periodic revisions of the program.

END OF POLICY
