

Condon School District 25J

Code: **IGAEB**
Adopted: 6/19/90; 4/12/94
Readopted: 11/09/05; 11/12/08; 4/13/16
Orig. Code(s): IGAG

Drug, Alcohol and Tobacco Prevention - Health Education**

While drug, alcohol and tobacco use is dangerous in all segments of American society, it poses special risk to young people by denying them the opportunity to develop physically and psychologically. To this end, the district is committed to drug-free schools and intends to send a clear message that alcohol, drug and tobacco use and/or possession is illegal and will not be allowed in the district or at school sponsored events and activities.

The district will develop a written plan for a drug, alcohol and tobacco education program that emphasizes prevention, describes intervention referral procedures, outlines the consequences of violating district policy, identifies access and use of federal moneys and includes staff development. After consulting with a drug/alcohol/tobacco prevention committee consisting of a parent, a teacher from each school, a community representative and a health professional, the Board will annually review the plan for revision and readoption.

Prevention Program

The district shall also provide Board adopted curriculum for grades 9-12. Each student shall receive age appropriate drug, alcohol and tobacco prevention instruction through health education courses and integration throughout the curriculum. The program will be consistent with the state academic standards.

Each year the Board will review the drug, alcohol and tobacco prevention program results in consultation with the district's drug, alcohol and tobacco prevention committee and revise as necessary to reflect current research.

The district is committed to an aggressive intervention and referral program to eliminate the illegal use of drugs, alcohol and tobacco.

The program shall include training for staff and a compilation of information on school and community resources and procedures for responding to drug-related incidents to include emergency medical care. The district staff development program shall include an inservice for all staff addressing the district's drug, alcohol and tobacco prevention program, current drug, alcohol and tobacco information and their responsibilities within the program.

Parents, students and staff shall receive annually in handbooks information and detailed procedures regarding the district's intervention/referral program. A public information plan will be published in the district newsletter.

Each year students and parents shall receive a code of conduct explaining expected behaviors and related consequences for violations of the conduct code. Students violating the code of conduct prohibiting possessing, using and/or selling drugs and alcohol shall be subject to disciplinary action or referral. When

considering disciplinary action for a student with disabilities, the district must follow the requirements of Board policy JGDA/JGEA - Discipline of Students with Disabilities including those involving functional behavioral assessment, change of placement, manifestation determination and an interim alternative educational setting.

Educators are not police officers and should not be expected to act as such. Therefore, when a student appears to have broken the law, proper authorities will be called to take appropriate action.

Each year the district will actively seek funds to support the activities identified in the district's drug, alcohol and tobacco prevention program.

The district's Drug, Alcohol and Tobacco Prevention – Health Education policy, related policies, rules and procedures will be reviewed annually and updated, as needed

END OF POLICY
