

Coos Bay School District 9

Code: **IF**
Adopted: 2/13/89
Readopted: 12/13/10; 5/08/17
Orig. Code(s): IF/IFD

Curriculum Development

The Board believes it necessary that the district continually develop and modify its curriculum to meet changing needs in technology and fields of knowledge and to assure the full, rounded and continuing development of our students. The Board authorizes the administration to review the curriculum periodically and to advise the Board on needed curriculum changes.

The Board has adopted the following process for development/revision of the district curriculum.

1. Curriculum shall be developed and/or revised under the supervision of the curriculum director.
2. The curriculum director shall work closely with principals in selecting members of curriculum committees. When appropriate, grade levels and/or buildings shall be represented on a single committee. Otherwise, only the building or buildings concerned shall supply representation for the committee.
3. Committees shall be assigned to work in each area of the curriculum. Teachers should have a major role in curriculum development and committee work.
4. Final decisions as to the curriculum to be implemented shall be made after committees have completed their assigned tasks. To allow for ample time, the period for curriculum study shall be flexible. However, committee recommendations for curriculum adoption shall be submitted to the curriculum director no later than June 30.
5. Upon the recommendation of the curriculum director, the superintendent shall submit the curriculum proposals to the board for approval or review. If necessary, the superintendent shall submit the proposed curriculum to the State Department of Education for approval.

Recommendations to add or delete existing programs must be approved by the Board. Added or deleted courses will be reported to the Board.

END OF POLICY
