Traffic Safety Education

If a traffic safety education program is provided by the district, it will be open to eligible resident students. On a space available basis, it will also be opened to other nonresident individuals of high school age.

When provided, a traffic safety education program sponsored by the district will be accomplished via a contract between the district and a private company, licensed to operate such a service. The program must meet state standards and qualify for state reimbursement funds.

It is intended such a program will be financially self-sufficient. Tuition of a sufficient amount will be charged to cover the costs of the program when combined with state reimbursement funds.
