

Corbett School District 39

Code: **AD**
Adopted: 5/18/87
Readopted: 10/16/97, 2/21/07
Orig. Code(s): AD

Philosophy of Education

It is the intent of the Corbett School District to provide quality educational opportunities for all students in the district's schools to help them become productive members of a changing society. To accomplish this intent, the Board endorses the following set of beliefs about the education of children:

1. Nothing in this district is more important than its children;
2. No activity in this district is more important than the education and training of its children;
3. The school shares with the family and the community at large the formation of habits, skills and attitudes of the children of the community;
4. Instruction is the heart of the school system. Therefore, the work of the Board and the employees in all other departments is directed toward supporting the instructional program;
5. Students need to develop self-esteem, respect for authority and a sense of trust. To develop these traits, students need a friendly and stimulating environment where each student is treated as an individual;
6. Each student should be helped to develop to his/her full potential;
7. Fair and consistent discipline is essential to education.

END OF POLICY
