## Safety Program

During the hours students are in the care of the school, their safety must be assured as far as it is humanly possible. School employees and visitors are entitled to the knowledge that safety provisions have been made for them as well. The district has developed "Emergency Procedures" which should provide for the safety of students, school employees and visitors.

The superintendent has the authority and responsibility to act within the guidelines and framework of these plans and procedures. The superintendent is also directed to use his/her best judgment in any emergency that might arise. All actions taken should be transmitted to the proper authorities as soon as circumstances permit.
