Use of Private Vehicles for District Business

The Board discourages the use of private vehicles for district business, including the transportation of students. District staff will use district-owned vehicles whenever possible and should schedule both activities and transportation far enough in advance to avoid any non-emergency use of private vehicles.

Authorization to use a private vehicle must be obtained from the building principal before actual use of the vehicle. Staff members who are authorized to use a personal vehicle on district business will be reimbursed in an amount established by the Board.

The superintendent will develop regulations for staff use of private vehicles which will safeguard the district, its employees and students in matters of safety, insurance and liability. The Board will review such regulations.

At least two staff members must accompany a student being transported in a private vehicle unless an exception is approved by the building principal.

No student will be allowed to perform district business with his/her own automobile, a staff member's automobile or a district-owned vehicle.
