

Facilities Renovation

The Board's priorities for funding renovation of facilities are as follows:

First priority-protection of life and health; compliance with mandated city, state, and federal requirements governing construction codes and life safety requirements;

Second priority-direct support of the educational program;

Third priority-urgently required projects to comply with the priorities set forth in the district's comprehensive planning program for facilities and sites;

Fourth priority-all others.

The participation of staff, parents, and the community in the development of plans for new construction and major renovation of facilities will be actively solicited.

The superintendent will establish procedures for requesting, approving, and scheduling facilities renovation.

Plans for new and remodeled buildings will be designed and offer accommodations to make them accessible to persons with disabilities. The Board will review construction plans to assure that new and remodeled buildings are made fully accessible.

END OF POLICY
