

High School Graduation Requirements

Board will establish graduation requirements for the awarding of a high school diploma, a modified diploma, an extended diploma, and an alternative certificate that meet or exceed state requirements. A student may satisfy graduation requirements in less than four years. The district will award a diploma to a student fulfilling graduation requirements in less than four years if consent is given by the student's parent or guardian or by the student if he/she is 18 years of age or older or emancipated.

1. Diploma

A high school diploma will be awarded to students in grades 9 through 12 who complete a minimum of 24 credits which include at least:

- a. Three credits of mathematics (shall include one unit at the Algebra I level and two units that are at a level higher than Algebra I);
- b. Four credits of English (shall include the equivalent of one unit in written composition);
- c. Three credits of science;
- d. Three credits of social sciences (including history, civics, geography, or economics (including personal finance));
- e. One credit in health education;
- f. One credit in physical education; and
- g. Three credits in career and technical education, the arts, or world language (units shall be earned in any one or a combination).

The district shall offer students credit options provided the method for obtaining such credit is described in the student's personal education plan and the credit is earned by meeting requirements described in OAR 581-022-1131.

To receive a diploma or a modified diploma, in addition to credit requirements, as outlined in OAR 581-022-1130 and OAR 581-022-1134, respectively, a student must:

- a. Demonstrate proficiency in the Essential Skills of reading, writing, and applied mathematics;
- b. Develop an education plan and build an education profile;
- c. Demonstrate extended application through a collection of evidence;
- d. Participate in career-related learning experiences.

2. Essential Skills

The district will allow English Language Learner (ELL) students to demonstrate proficiency in the Essential Skill of Applied Mathematics, in a variety of settings, in the student's language of origin for those ELL students who by the end of high school:

- a. Are on track to meet all other graduation requirements; and
- b. Are unable to demonstrate proficiency in the Essential Skills in English.

The district will allow ELL students to demonstrate proficiency in Essential Skills other than Applied Mathematics, in a variety of settings, in the student's language of origin for those ELL students who by the end of high school:

- a. Are on track to meet all other graduation requirements;
- b. Are unable to demonstrate proficiency in the Essential Skills in English;
- c. Have been enrolled in a U.S. school for five years or less; and
- d. Have demonstrated sufficient English language skills using the English Language Proficiency Assessment for the 21st Century (ELPA21).

The district will develop procedures to provide assessment options as described in the Essential Skills and Local Performance Assessment Manual, in the ELL student's language of origin for those ELL students who meet the criteria above, and the district will develop procedures to ensure that locally scored assessment options administered in an ELL student's language of origin are scored by a qualified rater.

3. Essential Skills Appeal

The district will follow Board Policy KL-Public Complaints in the event of an appeal for the denial of a diploma based on the Essential Skills graduation requirement. The district will retain student work samples and student performance data to ensure that sufficient evidence is available in the event of an appeal.

4. Expanded Options Diploma

An expanded options diploma will be awarded to a student who meets the following requirements: all of the standard diploma requirements listed above and 36 Linn Benton Community College credits earned in a planned educational program at Linn Benton Community College.

5. Modified Diploma

A modified diploma will be awarded only to students who have demonstrated the inability to meet the full set of academic standards established by the State Board of Education for a standard diploma while receiving reasonable accommodations. A modified diploma may be awarded only to a student who meets the eligibility criteria below:

- a. Has a documented history of an inability to maintain grade level achievement due to significant learning and instructional barriers; or
- b. Has a documented history of a medical condition that creates a barrier to achievement.

Having met the above eligibility criteria, a modified diploma will be awarded to students, who while in grade nine through completion of high school, complete 24 credits which shall include:

- a. Three credits in English;

- b. Two credits in mathematics;
- c. Two credits in science;
- d. Two credits in social sciences;
- e. One credit in health;
- f. One credit in physical education; and
- g. One credit in career technology, the arts or a world language.

In addition to credit requirements as outlined in OAR 581-022-1134, a student must:

- a. Develop an education plan and build an education profile;
- b. Demonstrate extended application through a collection of evidence.

A student must also demonstrate proficiency in the Essential Skills with reasonable modifications and accommodations.

Districts may make modifications to the assessment for students who seek a modified diploma when the following conditions are met:

- a. For a student on an individualized education program (IEP), any modifications to work samples must be consistent with the requirements established in the IEP. Modifications are changes to the achievement level, construct, or measured outcome of an assessment. This means that IEP or school teams responsible for approving modifications for a student's assessment may adjust the administration of the assessment and/or the assessment's achievement standard.
- b. For a student not on an IEP, any modifications to work samples must have been provided to the student during their instruction in the content area to be assessed in the year in which the student is being assessed, and modifications must be approved by the school team that is responsible for monitoring the student's progress toward the modified diploma.

Students not on an IEP or a 504 Plan may not receive a modified OAKS assessment.

A student's school team shall decide that a student should work toward a modified diploma no earlier than the end of grade six and no later than two years before the student's anticipated exit from high school. A student's school team may decide to revise a modified diploma decision.

A student's school team may decide that a student who was not previously working towards a modified diploma should work towards one when the student is less than two years from the anticipated exit from high school if the documented history has changed.

6. Extended Diploma

An extended diploma will be awarded only to students who have demonstrated the inability to meet the full set of academic content standards for a diploma while receiving modifications and accommodations. To be eligible for an extended diploma, a student must:

- a. While in grade nine through completion of high school, complete 12 credits, which may not include more than six credits in a self-contained special education classroom and will include:

- i. Two credits of mathematics;
 - ii. Two credits of English;
 - iii. Two credits of science;
 - iv. Three credits of history, geography, economics or civics;
 - v. One credit of health;
 - vi. One credit of physical education; and
 - vii. One credit of the arts or a world language.
- b. Have a documented history of:
- i. An inability to maintain grade level achievement due to significant learning and instructional barriers;
 - ii. A medical condition that creates a barrier to achievement; or
 - iii. A change in the student's ability to participate in grade level activities as a result of a serious illness or injury that occurred after grade eight.

Beginning in grade five or after a documented history to qualify for an extended diploma has been established, the district shall annually provide to the parents or guardians of the student, information about the availability and requirements of a modified diploma, an extended diploma, and an alternative certificate.

7. Alternative Certificates

Alternative certificates will be awarded to students who do not satisfy the requirements for a diploma, modified diploma, or extended diploma if the students meet minimum credit requirements established by the district. Alternative certificates will be awarded based on individual student needs and achievement.

8. Other District Responsibilities

The district will ensure that students have onsite access to the appropriate resources to achieve a diploma, modified diploma, extended diploma, or alternative certificate at each high school. The district will provide age-appropriate and developmentally appropriate literacy instruction to all students until graduation.

The district may not deny a student, who has the documented history of an inability to maintain grade level achievement due to significant learning and instructional barriers, or of a medical condition that creates a barrier to achievements, the opportunity to pursue a diploma with more stringent requirements than a modified diploma or an extended diploma for the sole reason the student has the documented history.

The district may award a modified diploma or extended diploma to a student only upon the written consent of the student's parent or guardian. The district shall receive the written consent during the school year in which the modified diploma or extended diploma is awarded. A student who is emancipated or has reached the age of 18 at the time the modified or extended diploma is awarded may sign the consent.

A student shall have the opportunity to satisfy the requirements for a modified diploma, extended diploma, or alternative certificate after four years starting in the ninth grade, or until the student reaches the age of 21, if the student is entitled to a public education until the age of 21 under state or federal law.

A student may satisfy the requirements for a modified diploma, extended diploma, or alternative certificate in less than four years but not less than three years. In order to satisfy the requirements for a modified diploma, extended diploma, or alternative certificate in less than four years, the student's parent or guardian or a student who is emancipated or has reached the age of 18 must provide written consent that clearly states that the parent, guardian, or student is waiving the fourth year and/or years until the student reaches the age of 21. A copy of the consent will be forwarded to the district superintendent who will annually report to the Superintendent of Public Instruction the number of such consents.

A student who meets the requirements for a modified diploma, extended diploma, or alternative certificate by the established deadline will have the option of participating in a high school graduation ceremony with the student's class.

A student who receives a modified diploma, extended diploma, or alternative certificate shall have access to individually designed instructional hours, hours of transition services, and hours of other services that equals at least the total number of instructional hours that is required to be provided to students who are attending a public high school, unless reduced by the IEP team.

The district will award to students with disabilities a document certifying successful completion of program requirements. No document issued to students with disabilities educated in full or in part in a special education program shall indicate that the document is issued by such a program. When a student who has an IEP completes high school, the district will give the student an individualized summary of performance.

Eligible students with disabilities are entitled to a Free Appropriate Public Education (FAPE) until the age of 21, even if they have earned a modified diploma, an extended diploma, an alternative certificate, or General Educational Development (GED) credential. The continuance of services for students with disabilities for a modified diploma, extended diploma, or alternative certificate is contingent on the IEP team determining the student's continued eligibility and special education services are needed.

Students and their parents will be notified of graduation and diploma requirements.

The district may not deny a diploma to a student who has opted out of statewide assessments if the student is able to satisfy all other requirements for the diploma. Students who opt-out will need to meet the Essential Skills graduation requirement using another approved assessment option. Students may opt out of the Smarter Balanced or alternate Oregon Extended Assessment by completing the Oregon Department of Education's Opt-out Form¹ and submitting the form to the district.

¹www.ode.state.or.us: or navigate to Teaching & Learning > Testing - Student Assessment > Smarter Balanced

The district will issue a high school diploma, upon request, to a person who served in the Armed Forces,² as specified in Oregon law, if the person was discharged or released under honorable conditions and has received either a GED credential, a post-secondary degree, or has received a minimum score on the Armed Services Vocational Aptitude Battery.

The district shall establish conduct and discipline consequences for student-initiated test impropriety. "Student-initiated test impropriety" means student conduct that is inconsistent with the Test Administration Manual or accompanying guidance; or results in a score that is invalid.
