## Safety Program

Safe buildings, grounds and equipment will be maintained in order to prevent accidents or injury to students, employees and others from fire, natural disasters, mechanical and electrical malfunction, and other hazards.

Buildings will be planned, constructed, equipped and maintained in accordance with appropriate local, state and federal safety regulations.

Buildings will be provided with alarm systems, fire extinguishers and other safety devices required by state and federal laws and regulations.

The superintendent shall have overall responsibility for the current comprehensive safety program, including the emergency plan. All staff will be responsible to help maintain a safe and healthful environment. The superintendent, as safety officer, will provide leadership and guidance to staff and monitor all parts of the safety program, including, but not limited to, implementation of policies and objectives, interpretation of regulations and compliance with and enforcement of all state and federal laws, rules and regulations.
