Code: **JG**  
Adopted: 1/05/99  
Revised/Readopted: 11/13/01; 8/20/13  
Orig. Code(s): 5700

## Student Discipline

Discipline in the district is based upon a philosophy designed to produce behavioral changes that will enable students to develop self-discipline necessary to function successfully in their educational and social environments.

The major objectives of the district discipline program are to teach the following fundamental concepts for living:

1. Understanding and respect for rights of individuals, appreciation of dignity and observance of safety precautions;
2. Understanding and respect for the law, district policies, administrative regulation and school rules;
3. Understanding and respect and compliance regarding public and private property rights.

The Board seeks to assure a school climate which is appropriate for learning and which assures the safety and welfare of personnel and students. The superintendent will develop administrative regulations whereby those students who disrupt the educational process or who endanger the safety of others will be offered corrective counseling and be subject to disciplinary sanctions.

The district shall enforce consistently and fairly all student conduct policies, administrative regulations and school rules.

A student whose conduct or condition is seriously detrimental to the school's best interests may be suspended or expelled in accordance with Board policies, administrative procedures. Such policies and regulations will ensure careful consideration of the rights and needs of the individual concerned, as well as the best interests of other students and the school program in general.
