

Creswell School District 40

Code: **EBAA**
Adopted: 2/3/93
Revised/Readopted: 6/10/98
Orig. Code(s): 8300

Reporting of Hazards

Through routine inspection of all facilities, materials and equipment, as well as through staff training, it is expected that all hazardous or potentially hazardous conditions or materials will be identified, reported and acted upon appropriately.

The district safety program shall provide for the development and maintenance of a written hazard communication program for the district. All personnel who, during the performance of their duties or in an emergency, may be exposed to hazardous chemicals and/or materials will be informed and trained to deal appropriately with such chemicals and/or materials. All employees will be trained to recognize and respond appropriately to the presence of hazardous chemicals and/or materials. Asbestos management training will be provided to those employees requiring the training under the law. All employees, students, parents and contractors will be notified of asbestos in district buildings. Asbestos management plans will be maintained in each building and updated in accordance with federal law.
