

Cyberbullying

The Board is committed to providing a positive and productive learning and working environment. Any form of harassment using electronic devices, commonly known as “cyberbullying,” by students, staff or third parties is prohibited and will not be tolerated in the district. “Cyberbullying” is the use of any electronic communication device to convey a message in any form (text, image, audio or video) that defames, intimidates, harasses or is otherwise intended to harm, insult or humiliate another in a deliberate, repeated or hostile and unwanted manner under a person’s true or false identity. In addition, any communication of this form which disrupts or prevents a safe and positive educational or working environment may also be considered cyberbullying. Students and staff will refrain from using personal communication devices or district property to harass or stalk another.

The district will take any report of cyberbullying seriously and will investigate credible reports promptly. Students are encouraged to report an incident immediately to a teacher or principal, who will take appropriate action. Students who make a report are expected, but not required, to preserve evidence of cyberbullying. For example, a student may save or bring a copy of an email, text message, picture or other electronic transmission that the student believes was intended harm, insult or humiliate.

Staff and students will participate in an internet/electronic communications training annually to ensure awareness of and compliance with district use policies. The superintendent or designee is responsible for developing administrative regulations to facilitate training.
