Funding Proposals and Applications

The Board has as its primary mission the education of district students according to adopted goals and objectives. To this end all legal and worthwhile financial resources will be pursued.

The district will pursue those grants available from the federal or state government or private sources that will help the district meet adopted goals and objectives of the curriculum or create facilities or purchase equipment or otherwise assist in implementing such programs as the Board has previously considered/approved.

In the event an opportunity arises to submit a grant proposal and there is insufficient time to place it before the Board, the superintendent is authorized to use his/her judgment in approving it for submission. The superintendent will review the proposal with the Board at its next regular meeting. The Board reserves the right to reject funds associated with any grant which has been approved.

Every presentation to the Board regarding pursuit of outside funding must include what obligations, expectations or encumbrances will exist when the grant ceases.

The Board will consider such requests for grants that meet the criteria above and have the support of the superintendent. The Board reaffirms its veto power over all grants prior to acceptance of funds.
