

Dallas School District 2

Code: **GCQE**
Adopted: 7/22/02

Student Teachers

The School Board recognizes the need for assisting the teacher training institutions in preparing qualified teachers to serve in the public schools. By providing opportunities for student teachers to observe staff teachers, to assist in planning and supervising classroom activities, and to develop and present specific instruction, the District can contribute to the development of that person's teaching skill.

It is the policy of the District to permit the assignment of student teachers into appropriate classroom experiences according to standard agreements, contracts, arrangements, and understandings with the institution preparing the teacher. The following guidelines are to be followed:

1. Observation assignments, block-of-time assignments, and regular student teaching assignments are permitted.
2. Supervising teachers will be selected by the building principal in which the assignment is to be made. Such selection will be based upon training, successful experience, and desire of teacher to supervise.
3. A student teacher shall not be used as a substitute teacher for an entire school day unless fully licensed at that time.

END OF POLICY
