Academic Achievement

The Board believes it is important that teachers have as much accurate knowledge of student achievement as possible to assess students' needs and growth; thus, a sharing of information among parent, teacher and student is essential.

The district shall ensure that all students have the opportunity to demonstrate progress toward becoming proficient in the knowledge and skills expected at the student's current grade level. Students who have not yet met or who exceed all of the standards at any grade level, will be offered additional services or alternative public education options.

The superintendent will develop and administer IK-AR which provides district staff guidelines for measuring and reporting student progress.
