Staff Participation in Community Activities

The Board appreciates the staff members and other employees participating in the life of the community. Conduct or associations on the part of a staff member which discredits or embarrasses the district or the school's patrons are discouraged by the Board.

The Board further encourages employees to participate fully in community organizations, particularly in their service-related activities. Such encouragement extends to the district's willingness to assist school personnel in assuming responsibilities of leadership and office holding in such organizations.

It is highly recommended and encouraged that all school employees make their home and residence within the boundaries of district. Beside the many responsibilities connected directly to the schools, school employees have varied civic responsibilities. Among these is the responsibility to vote. Teachers and other employees new to the district should take care of registering as soon as possible.
