

Dayville School District 16J

Code: **IKE**
Adopted: 2/13/96
Readopted: 11/08/11
Orig. Code(s): IKE

Promotion and Retention of Students**

Students in grades 9-12 will be promoted or retained in accordance with state and district graduation requirements.

For all other students, upon a request for promotion/retention from a parent/guardian or the teaching staff, a staffing shall be held using the criteria adopted by the Board.

Test results may be used to help determine the student's potential ability and actual performance. Test results, however, should not be the sole determining factor in evaluating the academic criteria.

A student must meet the academic area criteria before the other areas (social, chronological, physical, timing, knowledge) can be considered. Even if a student meets the criteria in the academic area, the student must qualify in all the other areas.

The superintendent shall review the staff's recommendation and meet with them to develop a final recommendation.

The decision shall be given in writing to the parent(s).

The parent(s) may appeal this decision to the Board at the next regular Board meeting.
