

Video Cameras on Transportation Vehicles

The Board recognizes the district's continuing responsibility to maintain and improve discipline, and ensure the health, welfare, and safety of its staff and students on district transportation vehicles.

The Board, after having carefully weighed and balanced the rights of privacy of students and staff with the district's duty to ensure discipline, health, welfare, and safety of staff and students on district transportation vehicles, supports the use of video cameras on its transportation vehicles.

Video cameras may be used to monitor student behavior on district transportation vehicles.

Such equipment may also be used to monitor the performance of district employees in the fulfillment of their duties on district transportation vehicles.

Students in violation of district conduct rules shall be subject to disciplinary action in accordance with established Board policy and administrative regulations governing student conduct and discipline.

Staff shall be subject to established Board personnel policies, administrative regulations, and labor agreements including provisions related to evaluation, discipline, and dismissal.

Video recordings, depending on how they are used in student disciplinary proceedings, may become a part of a student's education record. In such cases, the district shall comply with all applicable state and federal laws related to education records. Such records will also be subject to established district procedures regarding education records including access, review, and release of such records.

The superintendent shall develop procedures for the notification of staff, students, parents, and others as necessary of the use of video cameras on district transportation vehicles and such other procedures as may be required for the implementation of this policy.
