

Douglas Education Service District

Code: **JFCEB**
Adopted: 10/15/15

Personal Electronic Devices and Social Media**

Student possession or use of personal electronic devices and social media on ESD property, in ESD facilities during the school day and while the student is in attendance at ESD-sponsored activities is prohibited. Exceptions may be made with prior superintendent or designee approval for health, safety or emergency reasons or when use is provided for in a student's individualized education program (IEP). Students may not access social media websites using ESD equipment, while on ESD property or at ESD-sponsored activities unless the posting is approved by an ESD representative.

A "personal electronic device (PED)" is a device that is capable of electronically communicating, sending, receiving, storing, recording, reproducing and/or displaying information and data.

Devices attached to, or stored in a student vehicle parked on ESD property will be exempt from this policy, provided the device is not removed from the vehicle while on ESD property.

Students in violation of this policy will be subject to disciplinary action up to and including expulsion.¹ The superintendent shall ensure that the Board's policy is communicated to staff, students and parents through building handbooks and other such means.

The ESD will not be liable for information or comments posted by students on social media websites when the student is not engaged in ESD activities and not using ESD equipment.

END OF POLICY
