## **Student Discipline\*\***

Component school districts and private schools shall have jurisdiction over student discipline in situations where ESD staff provides services at those locations.

When ESD staff have jurisdiction for student discipline, the discipline shall be based upon a philosophy designed to produce behavioral changes that will enable students to develop the self-discipline necessary to remain in school and to function successfully in their educational and social environments.

The major objectives of the ESD discipline program are to teach the following fundamental concepts for living:

1. Understanding and respect for individual rights, dignity and safety;
2. Understanding and respect for the law, ESD policies, administrative regulations and school rules;
3. Understanding of and respect for public and private property rights.

The Board seeks to ensure a climate which is appropriate for learning and which assures the safety and welfare of personnel and students. The superintendent will develop administrative regulations whereby those students who disrupt the educational setting or who endanger the safety of others will be offered corrective counseling and be subject to age appropriate, research effective disciplinary sanctions.

The ESD shall enforce consistently, fairly and without bias all student conduct policies, administrative regulations and school rules.

A student whose conduct or condition is seriously detrimental to the ESD's best interests may be suspended. Students may be expelled for conduct that poses a threat to the health or safety of students or employees; when other strategies to change student behavior have been ineffective, except that expulsion may not be used to address truancy; or when required by law. The ESD shall consider the age of the student and the past pattern of the student's behavior prior to imposing the suspension or expulsion. The ESD will ensure careful consideration of the age appropriateness, rights and needs of the individual concerned, as well as the best interests of other students and the ESD program as a whole.

The use of out-of-school suspension or expulsion for discipline of a student in the fifth grade or below, is limited to:

1. Nonaccidental conduct causing serious physical harm to a student or employee;
2. When a school administrator determines, based on the administrator's observation or upon a report from an employee, the student's conduct poses a threat to the health or safety of students or employees; or

3. When the suspension or expulsion is required by law.

When an out-of-school suspension is imposed on a student, the ESD shall take steps to prevent the recurrence of the behavior that led to the out-of-school suspension, and return the student to a classroom setting to minimize the disruption of the student's academic instruction.

Parents, students and employees shall be notified by handbook, code of conduct or other document of the procedures to address behavior and the consequences of that behavior.

Administrative regulations for excluding students from ESD-operated classrooms shall be developed cooperatively with the component school districts.
