

Early Entrance into Kindergarten**

If a request for early admission to kindergarten is received by the district, the following guidelines will be used:

1. A child attaining age five on or before September 1 qualifies for kindergarten. Students who are not age five may be considered for early entry;
2. The Request for Early Kindergarten Entrance form must be filled out by a parent. The completion of this form and receipt of formal evaluation results will activate the early entry committee. Members of that committee are: kindergarten teachers, the speech and language therapist, principals and the director of special services;
3. The parents will be made aware that it is their responsibility to secure testing by a qualified agency approved by the director of special services;

Three areas that must be tested include:

- a. Cognitive (intelligence);
- b. Affective (social/emotional); and
- c. Physical.

Test scores should be in the top quartile for entering kindergarten;

4. All information must be received by the director of special education on or before August 1;
5. The early entry committee will review the test information and the parent interview forms. If a student is to be considered for early entrance, the student will also be required to participate in a one-day screening/observation conducted by the district no later than the third week of August;
6. The screening committee will make recommendations to the superintendent, and parents will be notified by the end of the third week in August;
7. A written appeal can be made by the parents to the superintendent who may affirm, reverse or modify the early entry committee's decision. A subsequent hearing may be held with the Board if the respective decision does not meet with the approval of the parent(s).
