Administrative Consulting Activities

The Board expects the superintendent and other administrators to devote full attention and energy to the concerns of the district. They may not be engaged in any other employment nor in long-term consulting assignments. However, the Board recognizes an obligation to contribute to the profession of school administration and to the field of public education generally. This policy, therefore, does not prohibit the superintendent or another district administrator from undertaking occasional consulting work that does not conflict with obligations to the district. Any administrative consultation will require prior approval by the superintendent or the Board, as appropriate.
