Immunizations and Health Examinations**

No student will be allowed to enroll or continue school attendance without first presenting evidence of compliance with Oregon Revised Statutes and Oregon Administrative Rules requiring immunization.

The superintendent/designee is authorized to exclude any student from school attendance for noncompliance with the statutes and rules. The superintendent/designee will notify the parent or guardian in writing of the reason for the exclusion, stating that the student will continue to be excluded until the student has complied with the requirements. The notice will also inform the parent that a hearing will be afforded upon request.

The district will comply with the Oregon Department of Human Services, Health Services, rules related to the district's immunization registry and the associated tracking and recall systems. This compliance shall include the waiver of the requirement of consent for release of information from or providing information to and the waiver of issues of confidentiality in regard to immunization records.

The policy is in effect for all students not exempted for religious or medical reasons.

All students participating in athletic programs are required to have an Oregon "sports examination" or the equivalent no earlier than six months prior to their initial participation in a district interscholastic athletic program. A student new to the district who wishes to participate in athletics is required to have a physical examination if he/she has not had the required Oregon sports medical examination or its equivalent. A copy of the examination report must be presented to the school prior to practice and competition in athletics.

Student athletes in grades six, seven, and eight who have had a physical examination as indicated above are required to have an Athletic Participation form filled out each year before they can take part in any athletic practice or contest.
