

Elkton School District 34

Code: **FEA**
Adopted: 8/10/98

Specifications

To ensure that all new and remodeled facilities are designed to best implement the educational program, the superintendent will provide for detailed educational specifications prior to design and construction or renovation. These specifications will include descriptions of:

1. All activities that will take place in the building;
2. The curriculum to be housed in the building;
3. Specific architectural characteristics desired;
4. The facilities needed, their equipment requirements as provided by law;
5. Pertinent budget and other governing factors.

The preparation of educational specifications serves a two-fold purpose:

To clarify and consolidate the thinking of administration, staff, Board and community on the needs, desires and objectives of the educational program to be conducted within the proposed new building, and
To organize this information in a manner that can be easily and clearly interpreted by an architect.

The superintendent in providing the educational specifications shall involve the Board, staff, student and citizen representatives and the architect . Consultants may be used when deemed necessary by the superintendent and the Board.
