

Organization of Instructional Advisory Council (IAC)

Purpose

The purpose of the IAC is to serve as an advisory group for the district in addressing curricular, instructional and assessment issues. The IAC will process or respond to recommendations made by other groups as needed; provide input to guide districtwide instructional policy leadership; and to formulate, propose or provide feedback regarding instructional issues that require Instructional Leadership Team or superintendent action.

Membership

Membership will include teachers and administrators from each level – elementary, middle, high, special education – and each region, four parents – one from each level and special education, and up to six others appointed by the superintendent or designee. In addition, the Board chair will appoint up to two school board members. Appointments will last for a duration of two years, and members can be reappointed for additional terms. In addition, other individuals may be asked to participate dependent upon the issues and necessary expertise. The IAC will be chaired by the assistant superintendent of instruction or designee.

Meetings

The IAC will meet as needed during the course of the school year. Typically, one meeting will be held in the fall, winter and spring at a time determined annually by the full membership of the council. Special meetings, if needed, may be called by the assistant superintendent of instruction or designee.
