The board shall admit to the schools in District 4J, free of charge, all persons between the ages of 5 and 21 residing therein, according to provisions established in the state statutes. A child entering school for the first time shall be considered to be 5 years of age if his or her fifth birthday occurs on or before September 1.

Students who seek to enroll in the school district after their 19th birthday may be required, at the school's option, to attend an alternative school program at district expense.

### **Students Expelled From Other School Districts**

The district may deny regular school admission to a student who is expelled from another school district and who subsequently becomes a resident of the district or who applies for admission to the district as a nonresident student. In order to deny admission to a student who becomes a resident of this district, the administrator must follow the procedures outlined in the district's expulsion procedures.

The district shall deny regular school admission to a student who is expelled from another school district for an offense that constitutes a violation of state or federal weapons laws and who subsequently becomes a resident of the district or who applies for admission as a nonresident student.

The school administration shall inform a student who becomes a resident of the district and the student's parents about the availability of alternative education programs if the student's admission is denied because he or she has been expelled from another school district.
