## District Support of Civic Activities and Services

The Board of Directors recognizes the importance of its support of civic activities and services where the district's resources provide for the enhanced civic good and general welfare of the community. The Board affirms such support as outlined in ORS 332.172.

Notwithstanding this commitment to support the civic good and general welfare of the community, nothing in this policy obligates the Board or the district administration to provide such support, nor does this policy restrict the District from requiring fees, charges, or other forms of revenue recovery for expenditures or the allocation of staff time in support of identified activities and services. With the Board's concurrence, the district may choose to provide or support any and all services and activities, or the district may choose to withdraw its support of the above at any time.

The Board requires the superintendent to provide, as a part of his/her annual report to the community, an accounting of the district's support of civic activities and services in accordance with its service learning policies and civic commitment, and to establish administrative rules when necessary to implement the provision of civic support.

END OF POLICY
