

## Facilities Development Goals

As the Board seeks to provide and maintain facilities that will offer the best possible physical environment for learning and working, the Board aims specifically toward:

1. Providing buildings and renovations that will accommodate and facilitate those new organizational and instructional patterns that support the district's educational philosophy and instructional goals;
2. Meeting all safety requirements through the remodeling of older structures;
3. Providing such building renovations as needed to meet requirements on the availability of facilities to handicapped persons;
4. Building design, construction and renovation that will lend themselves to low maintenance costs and the conservation of energy.

The superintendent will ensure that sufficient funds are requested from the budget committee each budgetary period for the upkeep of district property and operation of district services.

END OF POLICY
