

Student Discipline

Discipline in the district is based upon a guidance-counseling philosophy designed to produce behavioral changes that will enable students to develop the self-discipline necessary to function successfully in their educational and social environments.

The major objectives of the district discipline program are to teach the following fundamental concepts for living:

- Understanding and respect for the rights, dignity and safety of all individuals;
- Understanding and respect for the law, district policies, procedures, rules and regulations;
- Understanding of and respect for public and private property rights.

The Board seeks to assure a school climate which is appropriate for learning and which assures the safety and welfare of personnel and students. The superintendent will develop administrative regulations whereby those students who are disruptive of the educational setting or who endanger the safety of others will receive corrective counseling and/or be subject to disciplinary sanctions.

A student whose conduct or condition is seriously detrimental to the best interests of the school may be suspended or expelled in accordance with statute, Board policy and administrative regulations established by the superintendent. Such policies and regulations will ensure careful consideration of the rights and needs of the individual concerned, as well as the best interests of other students and the school program as a whole.
