Energy and Natural Resource Conservation

Conserving energy and materials can contribute to the district's bottom line, freeing funds to support education of students. The district will make energy and natural resources conservation a part of the district's operation and educational programs. Emphasis will be placed on reducing the use of, reusing and recycling materials from natural resources and reducing energy consumption. The district will implement, monitor for effectiveness and report to the Board on cost-effective energy and resource conservation programs.
