

Admission of Nonresident Students

The district may enroll nonresident students as follows:

1. **Interdistrict Transfer Agreement:** By written consent of the affected school boards. The student becomes a “resident pupil” of the attending district thereby allowing the attending district to receive State School Fund moneys;
2. **Open enrollment:** By written consent from the school board with which the student has made application for admission. The student becomes a “resident pupil” of the attending district thereby allowing the attending district to receive State School Fund moneys;
3. **Tuition Paying Student:** By admitting a nonresident student with tuition, whereby neither affected districts are eligible for State School Fund moneys;
4. **Court Placement:** If a juvenile court determines it is in the student’s best interest, a student placed in a substitute care program outside the district will continue to be considered a resident student and allowed to attend the school the student attended prior to placement. The public agency placing the student in a substitute care program will be responsible for the transportation of the student, if public agency funds are available.

The Board directs the superintendent to deny regular school admission to nonresident students who are under expulsion from another district for a weapons policy violation. The district may deny admission to nonresident students who are under expulsion from another district for reasons other than a weapons policy violation.

Consent for Admission of a Nonresident Student by Interdistrict Transfer or Consent of a Tuition Paying Student

The Board reserves the right to accept/reject nonresident students based upon the availability of space and resources. The Board may not consider nor ask for any information from the student about race, religion, sex, sexual orientation, ethnicity, national origins, disability, health, whether a student has an individual education program (IEP) or the terms of that IEP, identified as talented and gifted, income level, residence, proficiency in English, athletic ability or academic records. The Board may not request or require the student to participate in an interview, tour any of the schools or facilities, or otherwise meet with any representatives of the school or district prior to the district deciding whether to give consent.

The Board may ask for the student’s name, contact information, date of birth, grade level, whether the student may be given priority on consent for admission (e.g., sibling in the district; change in legal residence; completion of public charter school in the district), information about which schools the student prefers to attend and whether the student is currently expelled.

If the number of students seeking consent exceeds the number of spaces, the Board will use an equitable lottery selection process. The process may give priority to students who have siblings currently enrolled in the district; to students who previously received consent for admission and because of a change in legal residence; or to students who attended a public charter school located in the same district in which the student seeks to attend, for three consecutive years, completed the highest grade offered by the public charter school and did not enroll and attend school in another district following completion of that highest grade in the public charter school.

The Board may revise the maximum number of students to whom consent will be given at a time other than the annual date established by the Board if there are no pending applications for consent.

If the Board decides not to give consent to a student the Board must provide a written explanation to the student.

The district may require minimum standards of behavior and/or attendance once the student has been accepted. The minimum standards must be the same for all students that are given consent. The district is not allowed to establish minimum standards for academics as a criteria for the student to remain in the district. Students whose consent is revoked for violation of set attendance and/or behavior standards will not be allowed to apply for consent to return to this district in the same or the following school year.

The Board may determine the length of time the consent is given. Any limitations in length of time must be applied consistently among all students to whom consent is given.

The district is not required to provide transportation outside the boundaries of the district. The student will be allowed to use existing bus routes and transportation services of the district. Transportation will be provided if required by federal law.

The attending district is responsible for a free appropriate public education for those students on an IEP.

Consent of the Nonresident District Board for which the Student has applied for Admission (Open Enrollment)

Annually, by March 1, the Board shall establish the number of students to whom consent will be given for the upcoming school year. The Board may choose to limit consent based on school, grade or the combination of both. The Board may decide not to give consent to any person under this process.

The Board may not deny consent, give priority nor request student information related to race, religion, sex, sexual orientation, ethnicity, national origin, disability, health, whether a student has an individual education program (IEP) or the terms of that IEP, income level, residence, proficiency in the English language, athletic ability, academic records or eligibility or participation in talented and gifted programs.

Applications for consent shall be submitted no later than April 1, prior to the year of requested consent. If the number of students seeking consent exceeds the number of students the Board has determined will be given consent, consent will be based on an equitable lottery selection process.

The district is not required to provide transportation outside the boundaries of the district. The student will be allowed to use existing bus routes and transportation services of the district. Transportation will be provided if required by federal law.

By May 1, the district shall provide written notification of admission of a nonresident student into the district, to the district of the student's legal residence.

The Board directs the superintendent to develop procedures to implement this policy.
